Sven Van Campenhout
Freelance Visual Designer

Hello 👋, I'm Sven and I'm passionate about creating user-friendly digital products.

With my broad background in graphic design, web design, and UI/UX design, I create designs that are both aesthetically pleasing and functional.

In my free time, I love to travel, bake something sweet, and go for walks with our dog Lizzie*. 🐶 Besides being a big animal lover, I am also a family person and I love to go out with friends for a night out.

* but Jerom and Odette are also part of the family 🐱
